

ETHICA DIAMOND

Report Type Ethica Diamond Grading Report
GRI Report Number
Shape
Measurements
Carat Weight
Colour E
Clarity VVS1
Cut Excellent

Polish Excellent
Symmetry Excellent
Flourescence None
inscription(s):

GRI®

Ethica Diamond Professional Anti-Counterfeit Certificate

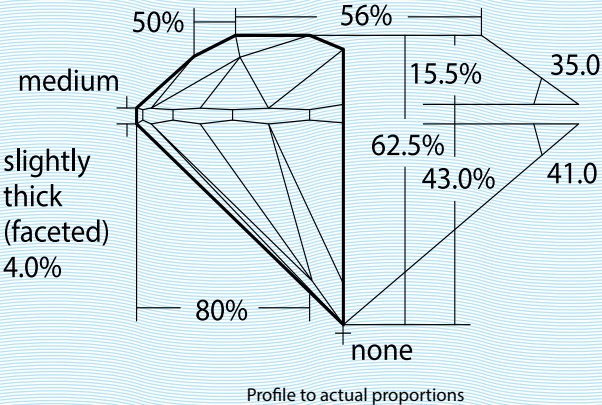

- 1. Anti-rounterfeit embossment shading, miniature text
- 2. Front colourless fluorecence (nonmally colourless, colourful under UV lamp)
- 3. Back colourful fluorecence (normally colourful, discoloured under UV lamp)

Ethica Diamonds are mm size equivalent to natural diamonds but slightly lower in relative density. Carat is a measure of the relative density of natural diamond not the size. The carat weight shown is the equivalent carat weight of a natural diamond of the same dimensions.

WHAT IS GRI?

Global Gemmological Research Institute (GRI) is an independent gemmological & jewellery research Institution. We specialise in identifying gemstones and jewellery, providing a reliable and accurate gemstone and jewellery testing service. Our quality report is certified by experienced, professional gemmologists.

TESTING & CERTIFICATION

Upholding the highest standards of quality, GRI has set up an international standard laboratory, furnished with cutting-edge gem testing equipment, modern technology, and a team of extremely qualified and experienced gemmologists who test and certify your diamonds, gemstones and jewellery. With an exceedingly advanced set-up, we provide diamond and gemstone grading, gemstone identification and jewellery quality analysis. With our live report verification service, you can instantly match your paper report, with the one archived on our web database.
